

Индивидуальный Проект

"Этап 2"

Выполнил: Кармацкий Никита Сергеевич

НФИбд-01-21

Цель работы:

Добавить к сайту данные о себе. Написать пост по прошедшей неделе и научный пост на выбор.

Поставленные задачи:

- Список добавляемых данных.
 - Разместить фотографию владельца сайта.
 - Разместить краткое описание владельца сайта (Biography).
 - Добавить информацию об интересах (Interests).
 - Добавить информацию об образовании (Education).
- Сделать пост по прошедшей неделе.
- Добавить пост на тему по выбору:
 - Управление версиями. Git.

Основные этапы выполнения работы

1. Список добавляемых данных:

- Разместить фотографию владельца сайта.

Для этого нам надо перекинуть нашу фотографию в каталог
~/work/blog/content/authors/admin

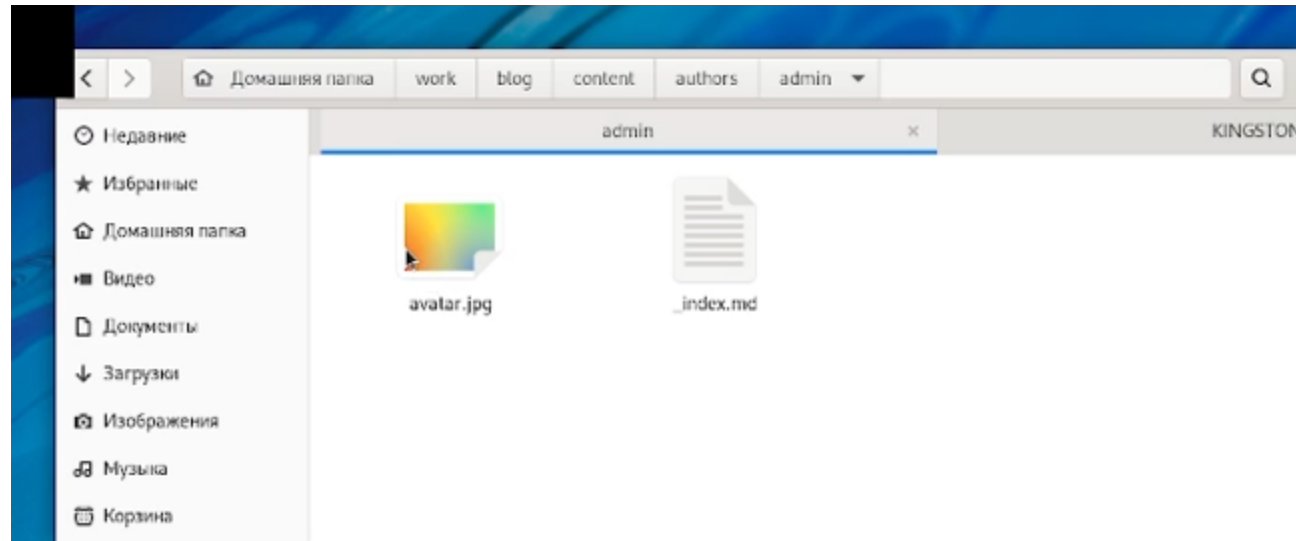

Рис.1 Разместили нашу фотографию для сайта

- Разместить краткое описание владельца сайта (Biography).

Для начала поменяем имя и университет и нашу роль, все это делаем через обычный текстовый редактор

A screenshot of a text editor window with a light gray title bar. The title bar contains a dropdown menu with the text 'Путь' and a plus icon, followed by the file path '~work/blog/content/authors/admin'. The editor's content area has a white background and shows a configuration file with green comments and black text. The text includes fields for 'display name', 'title', 'superuser', 'role', and 'organizations'.

```
1 # display name
2 #
3 title: Nikita Karmatsky
4
5 # Is this the primary user of the site?
6 superuser: true
7
8 # Role/position/tagline
9 role: RUDN student
10
11 # Organizations/Affiliations to show in About widget
12 organizations:
13   - name: Peoples' Friendship University of Russia
14     url: https://www.rudn.ru/
```

Рис.2 Поменяли имя, университет и роль

- Меняем основную биографию

```
12
13 # Highlight the author in author lists? (true/false)
14 highlight_name: true
15 ---
16
17 Nikita Karmatsky is a student of the Peoples' Friendship University of Russia. Helps secondary school
  students to prepare for the OGE in computer science. Wants to become a software developer.
18
19 {{< icon name="download" pack="fas" >}} Download my {{< staticref "uploads/demo_resume.pdf" "newtab" >}}
```

Рис.4 Поменяли основную биографию

- Добавить информацию об интересах (Interests).

Меняем чужие интересы на свои

```
17 # Changing Education interests message content: games,
18
19 # Interests to show in About widget
20 interests:
21   - Computer games
22   - Programming
23   - Reading scientific articles
24
25 # Education to show in About widget
```

Рис.5 Поменяли интересы на сайте

- Добавить информацию от образования (Education).

Ставим наш вуз РУДН вместо других вузов

```
# Education to show in About widget
education:
  courses:
    - course: Fundamental computer science and information technology|
      institution: RUDN University
      year: 2021
```

Рис.6 Поменяли информацию об образовании

3. Сделать пост по прошедшей неделе.

Для начала открываем папку `~/work/blog/content/post` и копируя первый самый пост на нашем сайте, делаем свой пост по прошедшей неделе.

Рис.8 Написали свой пост через текстовый файл

```
2
3 # Featured image
4 # Place an image named `featured.jpg/png` in this page's folder and customize its options here.
5 image:
6   caption: 'Image credit: me'
7   focal_point: ''
8   placement: 2
9   preview_only: false
6
1 authors:

1
2 ## Overview
3
4 1. Last week I did 3 laboratory work, but in fact 4, because the essence of one laboratory work was that
   was necessary to rewrite the report of the previous laboratory work, and then write a report on this work
5
6 2. I've been eating deliciously all week.
7
8 3. He also defended his report for maximum points. He told a monologue in English very
9
6 4. I don't know what to write anymore, so a clipping from one of my favorite video games
1
2 *"Появился, значит, в Зоне Чёрный сталкер. К лагерю ночью повадился ходить и там суёт р
   говорит: «Водичку попить!» А если не даст хлебнуть из фляжки или излужишь поделешь — прии
```

5. Добавить пост на тему по выбору:

"Управление версиями. Git."

Для начала скопируем наш старый пост, и начнем переделывать информацию в нем, попутно добавляя картинки в пост

Рис.10 Информационный пост

If you are a graphic or web designer and you want to save every version of an image or 1 you will), the version control system (hereinafter referred to as SLE) – just what you need. It return files to the state they were in before the changes, return the project to its original st changes, see who last changed something and caused the problem, who set the task and when, and m also means in general that if you have broken something or lost files, you can safely fix everyt to everything, you will get it all without any extra effort.

2. Local version control systems

Many people use copying files to a separate directory as a version control method (perha with a time stamp, if they are smart enough). This approach is very common because of its simpli incredibly prone to errors. You can easily forget which directory you are in and accidentally ch or copy the wrong files that you wanted.

In order to solve this problem, programmers have long ago developed local SLE with a sim stores records of all changes in files, thereby monitoring revisions.

![[Figure 1. Local version control](local.png)

Figure 1. Local version control

3. He also defended his report for maximum points. He told a monologue in English very well.

8. Проверяем все изменения в онлайн версии сайта

Биография и т.д.:

A user profile card for Nikita Karmatsky. It features a circular profile picture of a young man with light brown hair, wearing a white shirt and a dark jacket. To the right of the photo is the title 'Biography' in a large, white, sans-serif font. Below the title is a paragraph of text: 'Nikita Karmatsky is a student of the Peoples' Friendship University of Russia. Helps secondary school students to prepare for the OGE in computer science. Wants to become a software developer.' Below this text is a link with a download icon and the text 'Download my resumé.' To the left of the photo, the name 'Nikita Karmatsky' is written in a large, white, sans-serif font, followed by 'RUDN student' and 'Peoples' Friendship University of Russia' in smaller text. To the right of the photo, there are two sections: 'Interests' and 'Education'. 'Interests' lists three items: 'Computer games', 'Programming', and 'Reading scientific articles'. 'Education' lists 'Fundamental computer science and information technology, 2021' and 'RUDN University'. At the bottom of the card, there are five social media icons: an envelope, Twitter, a graduation cap, GitHub, and LinkedIn.

Biography

Nikita Karmatsky is a student of the Peoples' Friendship University of Russia. Helps secondary school students to prepare for the OGE in computer science. Wants to become a software developer.

Download my resumé.

Interests

- Computer games
- Programming
- Reading scientific articles

Education

- Fundamental computer science and information technology, 2021
- RUDN University

Nikita Karmatsky

RUDN student

Peoples' Friendship University of Russia
